

IHEB SAIDI

FULL STACK SOFTWARE ENGINEER

+216 94 247 033 • iheb.saidi.it@gmail.com • [linkedin.com/in/iheb-saidi-/](https://www.linkedin.com/in/iheb-saidi-/) • Tunis, Tunisie

Full Stack Software Engineer specializing in Java / Spring Boot and Angular, with 2+ years of experience designing, developing, and delivering high-value enterprise applications. Proven expertise in backend development (Java 17, Spring Boot, Spring Security, REST APIs) and frontend (Angular 14, TypeScript, RxJS, NgRx). Demonstrated track record delivering real-time industrial platforms, ITIL-compliant ITSM solutions, and microservices architectures. Strong DevOps skills across Docker, Jenkins, and SonarQube. Committed to software quality, measurable performance gains, and Agile/Scrum engineering discipline.

TECHNICAL SKILLS

Core Stack (Technical Expertise) : Java 17, Spring Boot (Web, Data JPA, Security, Validation, State Machine), Hibernate, RESTful APIs, JWT, Angular 14, TypeScript, RxJS, MySQL

Quality Assurance & DevOps : JUnit 5, Mockito, MockMvc, TDD, Docker, Docker Compose, Jenkins, SonarQube, Git, Linux

Frontend & Tooling : Angular Material, NgRx, ngx-datatable, Chart.js, Swagger, Postman, iText PDF

Databases & Data Modeling : MySQL (Query Optimization), PostgreSQL, MongoDB

Architecture & Practices : Microservices (Spring Cloud: Eureka, API Gateway), Agile/Scrum, ITIL, Jira

AI & Data (Academic Projects & Internships) : Python (Flask), RAG (Retrieval-Augmented Generation), Prompt Engineering, PyTorch, NLTK, R, Data Mining

PROFESSIONAL EXPERIENCE

FULL STACK ENGINEER – JAVA / ANGULAR

Jul 2024 – Jan 2026 | Novatek, Montplaisir

Client: Délice Group | Domain: Industrial Supervision & Production Traceability

- Architected and delivered a real-time industrial supervision platform (L1–L3 traceability) covering production monitoring, energy consumption tracking, and anomaly alerting.
- Engineered 30+ secured REST APIs with Spring Boot, sustaining 500+ concurrent users under production load.
- Delivered Angular 14 dashboards (NgRx, RxJS, Chart.js) for real-time industrial KPI visualization.
- Developed a dynamic PDF report generation engine using iText, implementing reusable business template logic.
- Implemented RBAC with Spring Security across a multi-tenant environment.
- Optimized MySQL schema and query strategies, cutting average response time by 40%.
- Authored JUnit 5 / Mockito tests achieving 75%+ coverage; enforced SonarQube quality gates.
- Streamlined delivery workflows by engineering Jenkins + Docker CI/CD pipelines, fully automating builds, tests, and deployments.
- Partnered cross-functionally with QA within Scrum sprints, reviews, and retrospectives.

Technologies: Java 17, Spring Boot, Angular 14, NgRx, RxJS, MySQL, iText, Spring Security, JUnit 5, Mockito, SonarQube, Git, Jira.

FULL STACK DEVELOPER – ITSM & AI INTEGRATION

Jan 2024 – Jul 2024 | Tunisair, Chargaia

Final-Year Project | Domain: ITIL-based ITSM Management

- Architected a full-scale ITSM platform with automated incident and problem workflow management.
- Integrated an AI module (Python / Flask + Ollama LLM) for intelligent PDF document analysis.
- Built complex Angular interfaces: FullCalendar, ngx-datatable, multi-step form wizards.
- Configured Jenkins + Docker + SonarQube + Nexus CI/CD pipelines end-to-end.
- Authored unit and integration tests covering all state machine transitions and business logic.
- Owned the full delivery lifecycle: analysis, design, development, testing, and release.

Technologies : Java 17, Spring Boot, Spring StateMachine, Angular 14, Python, Flask, Ollama LLM, MySQL, ITIL, Swagger, Scrum

FULL STACK DEVELOPER (INTERNSHIP)

Jul 2023 – Aug 2023 | Xtensus, Ariana

- Delivered a client management dashboard for a kitchen manufacturing company.
- Built REST backend services with Spring Boot and RxJS-driven dynamic Angular interfaces.

Technologies: Java, Spring Boot, Angular, TypeScript, MySQL, RxJS

FULL STACK DEVELOPER (INTERNSHIP)

Jul 2022 – Sep 2022 | World Soft Group, Marsa

- Shipped a hotel management web app with real-time room availability tracking.
- Developed REST APIs, unit tests, and functional validation of reservation workflows.

Technologies: Spring Boot, Angular, MySQL, RxJS, JavaScript

FULL STACK DEVELOPER – CHATBOT & AI

Feb 2021 – Jun 2021 | ISIMS, Sfax

Final-Year Project | Domain: NLP Conversational Chatbot

- Designed an NLP-driven addiction-prevention conversational solution from scratch.
- Engineered an intent classification model with PyTorch and NLTK, exposed via Flask REST API.
- Shipped the web front-end (HTML5, CSS3, JavaScript) integrated with the AI inference layer.

Technologies: Python, Flask, PyTorch, NLTK, NLP, REST API, JavaScript, HTML5, CSS3

NOTABLE ACADEMIC PROJECTS

FULL STACK & DEVOPS – REAL-TIME AUCTION PLATFORM

Sep 2023 – Nov 2023 | ESPRIT, Ariana

- Architected a distributed microservices system (Spring Boot, Eureka, API Gateway) with automated CI/CD pipeline (Jenkins + Nexus).
- Dockerized full stack; enforced quality via SonarQube; validated with JUnit 5 / Mockito.

Technologies: Spring Boot, Angular, Microservices (Eureka, Gateway), Docker, Jenkins, SonarQube, Nexus, JUnit, Mockito, Git

FULL STACK & DATA ANALYTICS – MEDICAL APPLICATION

Feb 2023 – May 2023 | Hôpital Charles Nicolle, Tunis

- Developed a medical sample management platform with Angular / Spring Boot and Python / R data analytics modules.

Technologies: Spring Boot, Angular, Python, R, MySQL, Data Mining

FULL STACK DEVELOPER – FITNESS CENTER DIGITALIZATION

Jan 2022 – May 2022 | ESPRIT, Ariana

- Designed and built a complete fitness center management and e-commerce platform (full-stack architecture, admin modules, online store).

Technologies: Java, JavaFX, Symfony, MySQL, JavaScript, TypeScript, HTML5, CSS3

EDUCATION

Engineering Degree in Computer Science (Bac+5) | 2021 – 2024

ESPRIT – Private Higher School of Engineering and Technology

Bachelor's Degree in Computer Science (Bac+3) | 2017 – 2021

ISIMS – Higher Institute of Computer Science and Multimedia of Sfax

AWARDS & ENGAGEMENTS

- **1st National Prize – Hult Prize 2020 (AI & Innovation):** IoT/AI solution for secure hospital waste management.
- **Software Engineering Mentor at ESPRIT (2022–present)** : guiding students in UML design and software architecture.
- **Tunisian National Taekwondo Team – 15 years of practice:** discipline, resilience, and performance under pressure.
- **Community Engagement – Enactus (2019–2021):** team coordination, event management, social innovation.
